

## MOBILE ENTERPRISE SOLUTIONS CAPABILITY COMPARISON

	Functionality	Microsoft Exchange ActiveSync	Standard Mobile Device Mgmt. Solution	Excitor DME Mobile Security	Notes
<b>Mobile Device Management</b>	<ul style="list-style-type: none"> <li>Full over the air management of iOS (iPhone &amp; iPad), Android, Windows Mobile &amp; Symbian mobile devices with enforcement of group policies and reporting.</li> </ul>	Limited	Yes	Yes	Excitor DME can either Manage mobile devices that utilise MS ActiveSync Push email, or manage devices that use Excitor DME proprietary push email system & secure Corporate partition.
<b>Security</b>	<ul style="list-style-type: none"> <li>UK CESG Security Accredited, suitable for CoCo compliance &amp; GCSX use.</li> <li>Blackberry levels of Security and Control.</li> <li>Proprietary push email &amp; over the air encryption system with no reliance on Microsoft Exchange ActiveSync.</li> <li>Proprietary on device encryption &amp; password management system not susceptible to vulnerabilities in Mobile Operating Systems.</li> </ul>	No	No	Yes	DME has been approved for use in the UK Public Sector by CESG, the UK Government IT Security Assessment body, to Impact Level 2 (IL2); Excitor plans to get DME IL3 accredited when CESG announce new IL3 test criteria for Mobile Security.
<b>Secure Corporate Partition</b>	<ul style="list-style-type: none"> <li>Corporate Sandbox with complete separation of all Personal &amp; Business Data.</li> <li>Remote wipe of Corporate Sandbox only when device lost or employee leaves organisation, users' personal data remains untouched.</li> </ul>	No	Limited*	Yes	Excitor DME Secure Container supports iOS, Android, Windows Mobile & Symbian on either Smartphone or Tablet form factor. (*Some MDM solutions allow selective wiping of email accounts on iOS, but they do not Partition Corporate data from Personal Data).
<b>Authentication</b>	<ul style="list-style-type: none"> <li>Mobile Device Sandbox single sign-on with Corporate Active Directory password.</li> <li>Change/Update Active Directory Password from Mobile device.</li> <li>Mobile Device Management &amp; Security policies assigned to AD Groups.</li> </ul>	Limited	No	Yes	ActiveSync can force users to have a password on their mobile device, though this password is for the whole device, not just Corporate data and is a different to a user's Active Directory password.
<b>Mobile Application Platform</b>	<ul style="list-style-type: none"> <li>Simple creation of Mobile Apps to connect to existing IT Systems.</li> <li>Write App once, deploy on all smartphones and tablets, including Blackberry.</li> <li>Host Corporate App Store for users to download approved Corporate Apps to any device.</li> </ul>	No	No	Yes	DME AppBox is a Mobile Enterprise Application platform enabling creation of form-based client applications, integrated into a wide range of back-office applications through DME's secure mobile architecture. (DME AppBox is an Additional Cost Module)
<b>Telecoms Cost Management</b>	<ul style="list-style-type: none"> <li>Mobile Cost Management; Usage Reporting &amp; real time alerting/blocking</li> </ul>	No	Partial	Yes	DME Supports Blackberry, Android, Windows Mobile & Symbian. (iOS limitations prevent Cost Management)
<b>Advanced Enterprise Features</b>	<ul style="list-style-type: none"> <li>Mobile Email: Search emails on phone &amp; server, Flag for Follow up.</li> <li>Mobile Calendar: Check meeting attendee availability, Delegate meetings, Set Out of Office.</li> <li>Synch To Do Lists, 2 way synching of files, access Network Documents, Intranet RSS Feeds, User selectable sync times.</li> <li>Mgmt. Server supports Windows, Linux, VMware, HA, scales to tens of thousands of users.</li> <li>Secure Intranet &amp; Web Based Application access within Corporate Partition (planned for early 2012*). <small>*Roadmap subject to change</small></li> </ul>	No	No	Yes	As Excitor DME utilises its own push email systems and on device clients, DME can enable Advanced Enterprise Messaging, PIM and data access features on all mobile devices. Whereas Mobile devices reliant on ActiveSync Push email can only mobilise the limited data ActiveSync supports.
<b>Monthly Cost</b>		Unknown	£3-£5	£4-£6	Excitor DME monthly cost calculated over 3 years. Assumes new licenses cost £100 each + 3 years Maintenance
